**VANCOUVER, BC / ACCESSWIRE / September 23, 2021 / Silver Elephant Mining Corp. (“Silver Elephant” or the “Company”) (TSX:ELEF)(OTCQX:SILEF)(Frankfurt:1P2N)** is pleased to provide the following update further to its news release dated August 26, 2021 with respect to the Company’s proposed plan of arrangement (the “**Arrangement**”) to spin-out its Manitoba based Minago Nickel project (“**Minago**”), its Nevada based Gibellini Vanadium project (“**Gibellini**”), and Battery Metals Royalties into Flying Nickel Mining Corp. (“**Flying Nickel**”), Nevada Vanadium Mining Corp. (“**Nevada Vanadium**”), and Battery Metals Royalties Corp. (“**Battery Royalties**”, and together with Flying Nickel and Nevada Vanadium, the “**SpinCos**”).

Further to the news release of the Company dated September 6, 2021, assuming the full completion of proposed previously announced private placement of common shares of the Company for aggregate gross proceeds of up to \$3,300,000 and that no further securities of Silver Elephant are issued prior to the record date of the Arrangement (the “**Record Date**”), which is presently expected to be in December, 2021, Silver Elephant will have approximately 235 million common shares and 32 million warrants and options issued and outstanding on the Record Date.

Subject to applicable laws, the policies of and approval by the Toronto Stock Exchange (the “**TSX**”), the receipt of shareholder approval and court approval, and satisfaction of other closing conditions, it is presently expected that, pursuant to the Arrangement:

1. each Silver Elephant share outstanding on the Record Date, will be consolidated on the basis of one post-consolidation common share (“**ELEF Share**”) for every ten pre-consolidation shares of Silver Elephant (the “**Consolidation**”); and
2. each Silver Elephant shareholder (“**Shareholder**”) will receive: one share of each of Flying Nickel and Nevada Vanadium for every post-Consolidation ELEF Share by such Shareholder on the Record Date; and two shares of Battery Royalties for every post-Consolidation ELEF Share held by such Shareholder on the Record Date.

Accordingly, upon completion of the Arrangement (including the Consolidation), there will be approximately:

1. 23,500,000 ELEF Shares and 3,200,000 warrants and options of Silver Elephant issued

- and outstanding;
2. 50,000,000 common shares in the capital of Flying Nickel issued and outstanding ("**Flying Nickel Shares**");
  3. 50,000,000 common shares in the capital of Nevada Vanadium issued and outstanding ("**Nevada Vanadium Shares**"); and
  4. 80,000,000 common shares in the capital of Battery Royalties issued and outstanding ("**Battery Royalties Shares**");

Silver Elephant securityholders (common share, option, and warrant) on the Record Date, assuming exercise of all warrants and options of Silver Elephant will collectively directly hold approximately:

1. 26,700,000 Flying Nickel Shares representing approximately 53.4% of the Flying Nickel Shares issued and outstanding;
2. 26,700,000 Nevada Vanadium Shares representing approximately 53.4% of the Nevada Vanadium Shares issued and outstanding; and
3. 53,400,000 Battery Royalties Shares representing approximately 66.8% of the Battery Royalties Shares issued and outstanding.

Any remaining Flying Nickel Shares, and Nevada Vanadium Shares held directly by Silver Elephant (upon completion of the prior distribution to Shareholders and reservation of Flying Nickel and Nevada Vanadium Shares for distribution upon exercise of warrants and options of Silver Elephant) will be transferred to Battery Royalties as part of the Arrangement.

Upon completion of the Arrangement, it is currently expected that the Company and each SpinCo will focus on its corresponding core business with:

1. Silver Elephant holding a 100% interest in its Pulacayo silver and El Triunfo gold-silver projects in Bolivia, and approximately 26,600,000 (representing 33.2% of) Battery Royalties Shares as a long-term investment;
2. Nevada Vanadium, holding a 100% interest in its Gibellini vanadium project in Nevada;
3. Flying Nickel, holding a 100% interest in its Minago nickel project at Thompson nickel belt in Manitoba; and
4. Battery Royalties, holding 2% royalties of each of the assets referenced above and, approximately 23,300,000 (representing 46.6% of) Flying Nickel Shares and 23,300,000 (representing 46.6% of) Nevada Vanadium Shares as a long-term investment.

While the foregoing has been prepared on the basis that no additional securities of each SpinCo will be issued, it is presently expected that each SpinCo will complete a financing in connection with the Arrangement to provide for working capital and other corporate purposes. Further details on SpinCo financings will be provided when available.
